PROFESSIONAL SUMMARY

Detail-oriented Quality Assurance Tester with 4 years and 6 months of experience in manual end-to-end testing, User Acceptance Testing (UAT), regression testing, smoke testing, and defect management for high-traffic e-commerce and government systems. Experienced in executing test cases, validating business requirements, collaborating with cross-functional teams in Agile and Waterfall environments, and ensuring stable and high-quality software releases.

CORE SKILLS

Manual Testing • User Acceptance Testing (UAT) • Regression Testing • Smoke Testing • UI/UX Testing • Web & Mobile Testing • Defect Tracking & Reporting • Test Case Execution • SAP Commerce (Hybris) • JIRA • Redmine • Google Sheets • Agile & Waterfall Methodologies • Azure DevOps (Basic Knowledge)

PROFESSIONAL EXPERIENCE

Quality Assurance Tester – Nityo Infotech

Aug 2023 – Apr 2026

- Executed end-to-end testing for web and mobile e-commerce platforms, including product browsing, cart, checkout, payment, and order management.
- Performed full order-flow validation using SAP Hybris (SAP Commerce), ensuring accurate data synchronization between frontend and backend systems.
- Collaborated with developers, designers, business analysts, and stakeholders in Agile and Waterfall environments.
- Executed test cases, monitored test progress, and reported testing status.
- Prepared and maintained UAT documentation for deployment and business validation.
- Logged, tracked, and validated defects using JIRA to support timely resolution and improve release quality.

Software Tester – Prime@ Technology Specialists, Inc.

Apr 2021 – Dec 2022

- Logged and tracked defects in Redmine to ensure timely issue resolution.
- Generated comprehensive test evidence across multiple testing cycles, helping reduce defect re-open occurrences.
- Executed test cases and maintained Google Sheets trackers for organized test data management.
- Reviewed system requirements and validated application behavior against business expectations.
- Participated in walkthroughs and testing sessions for web and application systems.

KEY PROJECTS

Shopify to SAP Hybris Migration

- Conducted end-to-end testing of web and mobile e-commerce functionalities.
- Validated complete order processing from frontend to SAP backend systems.
- Managed defect reporting and retesting activities through JIRA.

Digital Asset Management (DAM)

- Tested image and video upload, approval, publishing, and synchronization processes.
- Verified integration between DAM, Hybris, and Product Cockpit.

Promotion Landing Page Enhancement

- Performed UI and UX testing for banners, coupon zones, deals, videos, slides, featured brands, and terms and conditions.
- Verified button functionality, page routing, and customer navigation flows.

PPSR Quality Assurance & System Audit

- Performed scope and regression testing for system enhancements.
- Created and executed test cases for financial transactions, collateral registries, and user authentication modules.
- Supported system reliability, data integrity, and compliance validation before public deployment.

EDUCATION

Bachelor of Science in Computer Engineering

Colegio de Montalban | 2015 – 2020

TRAINING & CERTIFICATIONS

- The Artificial Intelligence for Communities Workshop (Apr 2026)
- ISTQB Technical Test Analyst Preparation (May 2026)
